The Big Foot is still my stand of choice. The models longevity is proof of its workhorse characteristics, plus it’s made to be quiet and comfortable.

Dale Larson
Trophy Deer Hunter

I have hunted out of a number of stands and nothing compares to a Rivers Edge 17 Foot 2-Man. Great room and quietness made it easy to get a shot at my first trophy buck. (Green Score 194)

Joe Wineinger
Trophy Buck Hunter

My video production team used your products all season with great success. The Big Foot XL, Big Foot, Ground Blinds and Tiger Claw are deadly combinations. A sure fire way to be one-step-up on those bucks. Rivers Edge stands are designed by hunters and continue to be one of the best companies in the business.

Doug Below
Outdoor Writer
Trophy Whitetail Hunter

In 40 some years of bow hunting I found ‘they’re all the same’ doesn’t apply to Rivers Edge. They’re simply my favorite and the best.

Rob Evans
Trophy Deer Hunter

If it wasn’t for using deadly quiet Rivers Edge stands, I doubt I would have been able to harvest this giant bear. I demand that the products I use are the best. That’s why Rivers Edge are the only stands I ever climb into, regardless of what big game species I’m chasing.

Steve Bartylla
Trophy Whitetail Expert, Professional Writer and Seminar Speaker

“I have hunted out of a number of stands and nothing compares to a Rivers Edge 17 Foot 2-Man. Great room and quietness made it easy to get a shot at my first trophy buck.”

Upgrade your Action Ladder #59580 to ultimate comfort. Complete kit includes two camouflage padded arm rests, one camouflage padded shooting rail and all necessary hardware.

**Strap Kit #59850** (not pictured)
Replacement strap kit includes all hardware needed to strap the hang-on stand to the tree. Fits all Rivers Edge hang-on tree stands.

---

**Safety Recall**

Rivers Edge has reason to believe the strap mounting bracket may, in some instances, be physically moved (rotated) in a position that may cause the tree stand to detach from the tree. This poses a potential hazard, especially if the consumer is not wearing the provided fall restraint device. The consumer should always use a fall arrest system, preferably a full body harness. To prevent the possibility of serious injury or death, we are conducting a recall in cooperation with the U.S. Consumer Product Safety Commission (CPSC) which will monitor its effectiveness. Recalled products include the following models, manufactured between January 1998 and July 2001.
